TransLeader on BBDays4IT!

On 6-15 September 2024, the 6th edition of the BBDays4IT IT festival was hosted in Bielsko-Biała. The ceremonial opening in the city hall was graced by the President of Bielsko-Biała representatives of universities and heads of IT companies.

During the previous editions of BBDays4IT, over 100 different events took place. The festival had 46 partners and over 3,500 participants. And although it is an industry festival, the program is expanding every year, there are more and more proposals and program ideas, and an increasingly large group of partners.

It was a good chance for TransLeader to integrate diverse perspectives and expertise from IT sectors, since TransLeader focuses not only on enhancing the professional growth of IT students but also on strengthening the synergy between academia, industry, and public policy, contributing to the development of innovative leaders equipped to navigate the challenges of the digital age.

The conference featured PhD Tomasz Gancarczyk, who presented the activities of the Reset IT Club and reported on the TransLeader project results implemented at the Department of Computer Science and Automation at the University of Bielsko-Biała.
