A3.1: Successful Transnational Meeting in Sofia, Bulgaria

The Erasmus+ TransLeader project team gathered in Sofia, Bulgaria, on November 16-17, 2024, for a pivotal transnational meeting (A3.1) hosted by the University of Library Studies and Information Technologies (ULSIT).

The Dean of the Faculty of Information Technologies of **ULSIT Georgi Dimitrov** organized and directed the meeting. Representatives from partner institutions across Poland, Ukraine, Portugal, and Bulgaria joined to advance Work Package 3 (WP3), focusing on developing an innovative curriculum in Artificial Intelligence (AI) and the Internet of Things (IoT) tailored to modern industry needs.

The meeting continued with discussions on:
- Project State-of-the-Art: led by Vasyl Martsenyuk and Georgi Dimitrov.
- Quality Assurance Plan: A roadmap to ensure the project's academic and operational excellence (Eugenia Kovatcheva).
- Evaluation Strategies: Internal and external mechanisms to assess progress and impact, led by Vasyl Martsenyuk and Renata Machlańska (the University of Bielsko-Biala).
- Learning Requirements: Specific competencies needed for AI, IoT, and leadership education, presented by UAlg, ULSIT, and Rekord SI.

The meeting began with an inspiring talk by Piotr Szymura, Vice-President of Rekord SI, on the company's mission and its strong partnerships with higher education institutions.
