The transferable training model - the best choice for training IT business leaders

NewsLetter

April 20, 2024

Kick-off meeting

has been conducted at the University of Bielsko-Biala (Poland) on April 18-19, 2024

The first transnational project meeting has served as the kick-off meeting for the project. The project's framework was re-presented and finalized, and also project management, communication, quality assurance, publicity and administrative matters were discussed.

The participants from the University of Bielsko-Biala, Poland (UBB), University of Library Studies and IT, Bulgaria (ULSIT), the University of Algarve, Portugal (UAlg), Taras Shenchenko National University of Kyiv, Ukraine (TSNUK), Rekord SI, Poland took an active part at the meeting.

All the materials related to the meeting is on https://tl.ubb.edu.pl/en/progress/title-1-1.html

Objectives

1. Restructuring and rebuilding the higher education system in the field of IT;
2. Improve the skills of teaching staff in the field of AI and IoT;
3. Create a sustainable knowledge transfer model;
4. Build an ecosystem of key partners;
5. Collaborative work between universities and enterprises.

Project management

There was focused on the principles of project management (duties of the institutional coordinator, forming the teams (Steering Team, Quality Assurance Team), coordinating intellectual outputs, trainings, and dissemination activities, evaluations and reporting). Also there were presented the preliminary versions of the Project Dissemination Plan and the Quality management plan.
